Customised developments

ABNOX has experience of many years in Lubrication, Metering and and High Pressure Technology. A team of best qualified engineers develops the required ABNOX Systems and Products.

We produce and test prototypes in our in-house mechanical division within short time. A defined project management process supports the developing of high quality products.

To offer customised solutions in Lubrication, Metering and High Pressure Technology is our main business.

Guarantees

Regulations of the Swiss Association for Standardisation are valid.

Hand Lever Pumps have a guarantee of 3 years, and all other ABNOX products have a guarantee of one year (guarantee is given for one shift work).

Furthermore ABNOX guarantees:

- Expert advice on pumping, metering and the application of lubricants
- High quality equipment at market prices
- Top client care and the best After-Sales-Service
