

Spray Valves AXSPV

001067X

Model	DVL-NN1-Dxx-Lxxx-KLS-RS015
Construction Type	KLS (adhesive) Nozzle / not needle-sealing
Version	Round jet 15° / Straight ahead

Description

Nozzle extension DVL, not needle-sealing (NN1)

- Spray form: Round jet 15° (spraying straight ahead)
- For nozzle _ 1 mm
- Equipped with a KLS (adhesive) nozzle
- Choice with or without swirl nozzle (S) 45°

The nozzle extension DVL, not needle-sealing (NN1) have been specially developed for applications in which only very little space is available for installation in machines or robots, or where spraying must be carried out through or into very small openings.

This nozzle extension is placed on the nozzle of the spray valve instead of the air cap.

Selection of nozzle extension DVL-NN1 without swirl nozzle

Article-No.	Model	Nozzle outside diameter (D)	Nozzle length (L)	Outlet nozzle bore (d)
